AI & DATA SCIENCE ENGINEERING

madhavankannan657@gmail.com | +91-9361319621
linkedin.com/in/madhavan-02jan2006 | Palani, Tamil Nadu

Professional Summary

Highly motivated B.Tech AI & Data Science student with strong foundations in Java, Python, SQL, and Data Analytics, along with working knowledge of modern web technologies including Node.js, React.js, and Spring Boot. Hands-on experience in AI-based projects, database management systems, and IoT solutions. Passionate about applying data-driven approaches and intelligent systems to solve real-world problems. Proven leader as Student Coordinator for the AI & DS Department, with a proactive, self-learning mindset.

Education

B.Tech – Artificial Intelligence & Data Science 2023 – 2027
V.S.B Engineering College, Karur · Currently 4th Year
CGPA: 8.64 / 10

Class XII – Higher Secondary March 2023
Sankar Ponnar Higher Secondary School, Palani
Score: 86.5%

Class X – Secondary School March 2021
Devi Matriculation Higher Secondary School, Palani
Result: All Pass

Project Experience

AI Integrated Hospital Management System

Designed a system to manage hospital operations using AI-driven data handling and intelligent automation techniques for efficient patient and resource management.

COREBINDERZ – Startup Database Management

Developed a database-centric solution using MySQL to efficiently organize, query, and manage startup-related data for improved decision-making.

AI-Password Reset Bot

A smart bot designed to automate password reset requests through secure authentication. Enhances user experience by providing fast, reliable, and hassle-free password recovery.

Speed Detection & Traffic Monitoring System

Proposed a system to detect over-speeding vehicles using sensors and cameras, integrated with a Python-based monitoring system for automated traffic enforcement.

I hereby declare that all information provided is true and correct to the best of my knowledge.
